**Nancy Burger : A Special Kind of Brain: Living with Nonverbal Learning Disability** before purchasing it in order to gauge whether or not it would be worth my time, and all praised A Special Kind of Brain: Living with Nonverbal Learning Disability:

0 of 0 people found the following review helpful. Five Stars By David De Caro Very informative. 0 of 0 people found the following review helpful. Funny helpful book that gets it By Camille Dan I couldn't put this book down. An excellent resource, sensible and sensitive, funny and helpful. The author really gets it. 2 of 4 people found the following review helpful. disappointed By ice This book was limited to the author's experience with her own child and

at times it appeared that she was bragging about her son, her life, her lifestyle etc. We don't all have unlimited funds to pick and choose private schools.....etc. Then, the author picks up and moves the whole household to find a different school that she heard might be good. Regular families struggling with NLD and autism don't often have the funds to do all this and it made me put down the book feeling less understood than before. Advice in the book was same as you would find in an intro book about the disorder.

Sharing the experience of bringing up a child with nonverbal learning disability (NLD), this warm and accessible book offers advice on subjects ranging across diagnosis and therapy, children's interaction with each other, suitable activities for a child with NLD and how to discuss NLD with children. An essential guide, this book will reassure, advise and inform parents and professionals who work with children with NLD.

A nicely-presented guide aimed at parents and social care staff, both of whom may need some informed and practical guidance on how to work with, support and interact constructively with children with nonverbal learning disability (NLD). -- Care and Health Magazine A nicely-presented guide aimed at parents and social care staff, both of whom may need some informed and practical guidance on how to work with, support and interact constructively with children with nonverbal learning disability (NLD). (Care and Health Magazine)About the Author Nancy Russell Burger is a freelance writer whose nine-year-old son, Jimmy, was diagnosed with NLD at the age of four. She lives in Redding, Connecticut with her husband David, Jimmy and seven-year-old daughter Shawn.
