Obviously it's used so it looks dusty like a library book, but all the pages were there. There was some highlighting in the book but that was expected.2 of 6 people found the following review helpful. For collegeBy N. ZahnerI had to get this for one of my classes. We use it every class session. There are many interesting essays in this text. I must say it has brought a lot of issues to my attention. Or maybe it is just the class!!0 of 3 people found the following review helpful. good bookBy Christine Loi like mill and kant. so far so good =) im happy this book came in time for classes.

This text addresses various topics in applied ethics from Western and non-Western perspectives. Multicultural

perspectives are fully integrated throughout the text.
