**George W. Ziegelmüller, Jack Kay : Argumentation: Inquiry and Advocacy (3rd Edition)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Argumentation: Inquiry and Advocacy (3rd Edition):

8 of 8 people found the following review helpful. textbook covers fundamentals By david trumble This debate textbook covers the fundamentals for debaters and teachers alike. All of the major issues which you will encounter are addressed. The only deficiency is a lack of depth in the actual affirmative and negative case chapters. These two chapters could easily be entire books. But, debaters will actually learn more details by practicing - and this book will encourage

debaters to give this activity a try. This book is worth having in your debate office. The updated edition is worth purchasing. 0 of 1 people found the following review helpful. This book presents a coherent introduction to the fundamental concepts of argumentation and debate, argumentation theory, and critical thinking. As the title suggests, the reader learns how to use argumentation effectively as a means of discovering what is worthy of belief and for gaining the support of others. Now comprised of nineteen in-depth chapters, this best-selling book offers a broad view of argumentation. The first two sections explain the field invariant concepts of critical inquiry. These chapters feature such concepts as propositions, data, inductive and deductive forms of argument, and fallacies. The third section examines the application of argumentation in advocacy situations. Readers will learn about propositions of fact/value and policy, the implication of argument fields and the narrative paradigm on the development and evaluation of argument, and the unique rhetorical challenges involved in communication arguments. The final section offers description and in-depth consideration of affirmative and negative strategies. In addition, the discussion of refutation and cross-examination is comprehensive and useful to both academic debaters and non-debaters.
