following review helpful. Five StarsBy Tessa RaeLove this author and her writings. Thank you!!2 of 2 people found the following review helpful. Warning -- I don't recommend the Kindle versionBy Witch CherylAs someone else mentioned and I wish I'd noticed earlier, I suggest that you NOT order the e-book for this one if you have a Kindle Paperwhite like I do. I ordered it - it looks awful. It's in landscape and can't be changed to portrait, and the text is tiny tiny and can't be enlarged except by swiping the screen. When I swipe the screen to enlarge the text, I can only read ONE page because when I try to move to the next page it goes back to tiny text on the same page. is giving me a refund for the e-book and I've ordered it in paperback but it's temporarily out of stock.

Sharing these practices and this beloved but fading culture has led me far afield, teaching and speaking. Ive rambled from the bayous of Louisiana to the ruined hills of West Virginia, and from Memphis to Glastonbury in search of stories and materials and ways of doing. There are so many old ideas newly integrated into my personal practice and my teaching enough to fill a book. And here it is. May you remember well and enjoy this next journey.

Byron Ballard has done it again! A delightful combination of wisdom and rituals, seasoned with easy to follow recipes, and sweetened with personal anecdotes, *Asfidity and Mad-Stones* is akin to a chat with your grandmother over a mug of homemade cider. Once in your hands, you won't want to put it down - and you'll refer to it again and again for years to come. -Dorothy Morrison, Author of *Utterly Wicked*
