Ike Presley, Frances Mary D'Andrea : Assistive Technology For Students Who are Blind or Visually Impaired: A Guide to Assessment before purchasing it in order to gage whether or not it would be worth my time, and all praised Assistive Technology For Students Who are Blind or Visually Impaired: A Guide to Assessment:

0 of 0 people found the following review helpful. Four StarsBy John J RamirezGreat book, lots of good ideas! Very helpful when working with the visually impaired.0 of 0 people found the following review helpful. Four StarsBy Pam WhiteUsing this book for an intro to at and it is very user friendly and informative.0 of 0 people found the following review helpful. Five StarsBy TonyThe book was in great shape!

Assistive technology is essential in today's world to enable people who are blind or visually impaired to participate fully in school, work, and life. But which assistive technology tools are right for your students? This comprehensive handbook is the essential resource for teachers of students with visual impairments, administrators, technology professionals, and anyone who needs to keep up with the ever-changing world of technology. *Assistive Technology For Students Who Are Blind or Visually Impaired: A Guide to Assessment* contains a wealth of technical information translated into clear, user-friendly terms, including:

- An overview of the full range of assistive technology that students can use to manage information in print or electronic formats-whether they use vision, touch or hearing to access information
- How to select appropriate tools and strategies
- A structured process for conducting a technology assessment
- Detailed assessment forms that can be used to determine students' technology needs and solutions to address them
- Advice on writing up program recommendations based on assessment results
- Reproducible, blank assessment forms
