Five StarsBy elizabeth ajayiSatisfactory0 of 0 people found the following review helpful. Must have book.By samsharmaThis book is a must have for all qualitative researchers.

The Second Edition of this best-selling textbook continues to offer immensely practical advice and technical expertise that will aid researchers in analyzing and interpreting their collected data, and ultimately build theory from it. The authors provide a step-by-step guide to the research act. Full of definitions and illustrative examples, the book presents criteria for evaluating a study as well as responses to common questions posed by students of qualitative research.
