Doesn't get five stars because these seem to be some of the left-overs from book one, which I don't have, but wish I did. Each page is filled with one drawing. If. Evocative, not explicit; surging water up to his knees, the blonde-pubed surfer leaned against one of the massive piers holding incognito the milling tourists above suggestive, erotic images by a skilled artist who knows what he's selling! 3 of 3 people found the following review helpful. Do not lose sight of this book By Leandro Fiorin I say this to those who are fans of erotic drawings. Each artist has his style and I watch your drawings a long time ago and thought I would find them in this book . I regret not having bought the book # 1, since it is already out of print. Anyway, the drawings

in this book are beautiful and exciting.0 of 0 people found the following review helpful. Five StarsBy Irisgil A. ViacrusisOk

In a very American, Hollywoodesque style, the California painter and illustrator certainly understands how to draw unrelenting scenes of dominance and submission. This work is reminiscent of his earlier volume and overall is clearly influenced by Tom of Finland.

About the AuthorBEAU, whose love of Tom of Finland is clearly seen in his works, made a name for himself by being published in magazines like MEN, MANDATE or UNZIPPED. Bruno Gmunder Verlag published his first book last year and it was an unmitigated success. Here we present the second, BEAUMEN2 in a premium hardcover volume.
