By Delphine Darcel Great history book with a treasure trove of new information from primary sources. One of my top 4 history books of all times. My ancestry is rooted in Carolina and the relationships between my black, white and Indian ancestors. Reading this expanded my understanding of my family's history. Thanks Peter Wood! Great work that I will read again and again and never be without.

If You Love History Then This Is A Must Read By Bgrand We keep wondering why we continue to make the same mistakes and operate in ways that don't serve us as a country. Well this book helps to enlighten us as to why that is. The lessons learned in the early days by White men or Europeans and those values have stayed with us as a country as we continued to push further and further away from the coasts into lands that belonged to Native Tribes. It also speaks about the introduction of Africans into America and the fear that Europeans had for those same peoples brought here to cultivate the land and increase the bank books of the slave holders. Again, I loved this book and learned a lot from it.

This book was responsible for the way we are taught about slavery now. Before Peter's book the schools still presented slavery as a necessary good and the slave was happy and loved the life he/she lead. Peter's research is still very relevant and a wonderfully insightful read. If you are interested in history at all this is a must read!

A groundbreaking study of two cultures in early America. Black Majority won the Albert J. Beveridge Award of the American Historical Association.

Mr. Wood has gone beyond any previous study of the history of slavery in the colonial period. . . . He has given us new perspectives not only on slavery but on human relationships in early America. - Edmund S. Morgan, author of *American Slavery / American Freedom* Easily the most thorough and the most penetrating case study yet written of the Afro-American population during the slave period. . . . Fascinating and instructive. - Jack P. Greene

About the Author Peter H. Wood is professor of American history at Duke University.
