I gave them to my youngest daughter at about 7 months and she is almost one and still loves looking at these and touching each page. My older daughter is almost 3 and she even likes reading them with my youngest. I feel like these books have a good amount of touch and feel on each page and they are a good size. Some of the textures are very similar among the four books but my baby doesn't mind. The pictures of the animals are bright and vibrant. Overall a good value with this set. 1 of 1 people found the

following review helpful. Wow!By C. EngenI really don't understand why people are upset one or two are the same in different books. At this age, repetition is good. And it's \$10 for four touch and feel books, who can beat that?I had been disappointed by this brand in the past. Not by the set. I was very much impressed by the quality. Very impressed. Buying another copy for a friend.1 of 1 people found the following review helpful.
