**From Brand: American Association of Museums : Building Museum and School Partnerships** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Building Museum and School Partnerships:

Museum educators and school teachers met for three workshops on establishing closer working relations between schools and museums. Each partner's expectations of the other, learning theories in museums, field trips, outreach projects, community as classroom, and cultural diversity constitute the core contents of the book. An appendix

includes an array of successful program materials used by museums in Pennsylvania.
