REALLY looking forward to the delivery of this book, as it appeared to be a very well put together survival manual from an "expert" in the field.... Disappointed! The author writes very amateurish, and much of his advice is common sense and not very profound for someone with his experience. The pictures aren't very useful or interesting, more like they were only put there as fluff... But most of all, THE EDITING WAS ATROCIOUS. Quite possibly the worst I have ever come across in a modern book! I would look elsewhere for a useful Survival handbook0 of 0 people found the following review helpful. This is one you want to have ready to grab if that tornado, hurricane, blizzard, or much worse is bearing down on you. And let's all hope that all it's ever going to be is just another pretty book on your shelf. But get it...
