Matt Cardin : Mummies around the World: An Encyclopedia of Mummies in History, Religion, and Popular Culture before purchasing it in order to gage whether or not it would be worth my time, and all praised Mummies around the World: An Encyclopedia of Mummies in History, Religion, and Popular Culture:

Perfect for school and public libraries, this is the only reference book to combine pop culture with science to uncover the mystery behind mummies and the mummification phenomena. Includes photographs, reproductions of ancient art, images from films and television, and a bibliography to encourage further research Features profiles of famous archaeologists and key figures who have been instrumental in bringing the mummy to modern consciousness Contains various timelines tracing the exploration of the Egyptian tombs, the birth of modern genetic and radiologic methods of study, the evolution of mummies in film and literature, and the history of mummies around the world Highlights key facts and interesting trivia related to mummies in helpful sidebars Offers an extensive bibliography to encourage further reading

"Mummies around the World is a fascinating overview that will be enjoyed by those with both a serious and a casual interest in mummies and their history." - Booklist "A WorldCat subject search reveals that this encyclopedia on mummies is the first one published in the past ten years. . . . The scientific articles may be the most fascinating, given the advancement of technologies over the last 30 years. The majority of articles treat the mummies of Egypt, if for no other reason than this type of mummy has been ingrained in the Western imagination since Napoleon's invasion. Overall, a good introduction to the subject. Summing Up: Recommended. Undergraduate students and general readers." - Choice "This truly rollicking blend of scientific and pop culture offers facts ranging from actual methods of mummification to an entry on the 1955 movie Abbott and Costello Meet the Mummy and includes trivia-fact boxes. An educational and entertaining compendium that is recommended for all 'mummymaniacs' everywhere." - Library Journal About the Author Matt Cardin is an instructor at Ranger College in Ranger, TX.
