WylieI bought this as a Christmas gift for my highly inquisitive and intelligent grandson. It is a really good book with all sorts of interesting information.3 of 3 people found the following review helpful. This is a fabulous book. I recommend it for bright kids age 8 and up, and for normal-average kids age 10-12 and upBy Jacob ReamesI recommend it for bright kids age 8 and up, and for normal-average

kids age 10-12 and up. Whutz so gr8 is u can pick it up for and read it for 2-3 minutes or an hour. Fascinating topics, and a quick read.0 of 0 people found the following review helpful. Fact Lover Gift!By tinaminrAwesome for your fact lover. My kiddo can take in so many facts, this book has kept her very busy!

For anyone who has pondered the vastness of our universe, the rich variety of our planet, and the endlessly fascinating world of knowledge that surrounds us, National Geographic presents this timely volume, now fully updated and expanded. Exploring a full spectrum of topics, from earth sciences to astronomy, from climate and habitats to human arts and cultures, from ancient history to cutting-edge technology, this meticulously written and extravagantly illustrated book is the ultimate family reference.

"Visually appealing and tremendous in scope...600 stunning photographs and illustrations further enhance its didactic power." -Library JournalAbout the AuthorNATIONAL GEOGRAPHIC is one of the worlds leading nonfiction publishers, proudly supporting the work of scientists, explorers, photographers, and authors, as well as publishing a diverse list of books that celebrate the world and all that is in it. National Geographic Books creates and distributes print and digital works that inspire, entertain, teach, and give readers access to a world of discovery and possibility on a wide range of nonfiction subjects from animals to travel, cartography to history, fun facts to moving stories. A portion of all National Geographic proceeds is used to fund exploration, conservation, and education through ongoing contributions to the work of the National Geographic Society.
