From Brand: Oxford University Press : New Oxford Rhyming Dictionary (Oxford Quick Reference) before purchasing it in order to gauge whether or not it would be worth my time, and all praised New Oxford Rhyming Dictionary (Oxford Quick Reference):

2 of 2 people found the following review helpful. Useful dictionary, but there's a learning curve in using it By D. Summerfield This book is a bit difficult to learn to use correctly. I was stymied when I first paged through it. But I

followed the directions set forth in the essay at the beginning, and am finding the book very useful. The book is organized by sound group. So you don't use it as you would a thesaurus by just looking up which words rhyme with "square" or "testify". You have to figure out where your word fits in the various sounds made by speaking the word aloud, and then go to the grouping and subgrouping which fits the sound. Do keep in mind that the rhyming sounds used are the British pronunciation. So there may be some words suggested by the book which sound odd to American ears. 0 of 0 people found the following review helpful. Five Stars By Carol Ann Laferriere great supplement to my reference library 0 of 0 people found the following review helpful. Great!!!! By kp1988 everything you need if you are a serious song writer. Definitely takes some of the work out of trying to rack your brain of words to rhyme

From wedding toasts to festive birthday cards, the New Oxford Rhyming Dictionary has what every writer (or budding writer) needs--rhymes for over 45,000 words, including proper names, place names, and foreign terms used in English. A marvel of clarity, the Dictionary is incredibly easy to use, its clear organization and layout making it a snap to find the rhymes you're looking for. Words are grouped by sound and there is also a complete alphabetical index to help you quickly navigate to the relevant section. In-text notes offer tips on using rhymes effectively, make suggestions for expanding the rhyming lists included in the book, and give examples of how poets past and present have used rhyme. In addition, the fascinating introduction by John Lennard offers a brief outline of rhyming in its literary and historical contexts, and gives further advice on creative writing. This new edition includes over 200 words added to the Oxford Dictionary of English since the publication of the original volume, including iPod, Americano, and vuvuzela. In short, The New Oxford Rhyming Dictionary is a must-have tool for poets, lyricists, and writers of all kinds, as well as a delight for everyone who likes to play with words.

"Arranged by sound rather than spelling, more than 45,000 English words with which to express yourself lyrically are presented in this handy ready-reference resource. An alphabetical index makes finding rhymes for words ranging from the ordinary to the valetudinary a breeze. See the fact-filled introduction for a history of rhyme, a "varieties of rhyme" table, and many examples of rhyme sublime. VERDICT: A mere browse is sure to inspire even the most blocked wordsmith.
