This has led to many fun discoveries and even a nod or two of acknowledgement ...By Bio 101I have used this dictionary for many years, ever since college when I chose Chinese as my major. There are many features that I have come to appreciate about it. Firstly, it is compact and portable. Secondly, it is arranged according to radical, which helps me to understand this important linguistic feature of the Chinese language and is a speedy way to look up characters ever since I learned the system. Thirdly, it lists the pronunciation of each character in three different systems, including the Mandarin phonetic system, Wade, and Bo-Po-

Mo-Fo, which gives me the tools to learn these alternative pronunciation systems and practice using them. Fourthly, the characters, words, and phrases that it defines are robust enough to allow me to use the dictionary as I read literature, as well as navigate everyday language. In addition, many proverbs are included in the selection of definitions. This has led to many fun discoveries and even a nod or two of acknowledgement and surprise at my language skills given to me by native speakers. Finally, the numerous indices allow one to look up words by pronunciation, stroke count, or radical. These features come in a surprisingly compact and pleasing package. The one down-side is the size of the print, and I have to admit that as I am now nearing 50, I have installed a magnifier lamp on my desk. Nevertheless, this dictionary has served me for many happy years. 0 of 0 people found the following review helpful. Five Stars By Robert Atkinson Thanks 0 of 0 people found the following review helpful. Excellent, and in pristine condition By Don Dominic A. Parrish Excellent, and in pristine condition. Traditional characters, hard to find now as most accessible Chinese dictionaries use the simplified characters. Thank you very much !

This compilation of the New Practical Chinese Reader is organized by the China National Office for Teaching Chinese as a Foreign Language (NOCFL). Now available in four volumes, this series features a total of 50 lessons. It includes vocabulary, grammar, drills and text grouped around the following topics: courtship, the role of men and women in society, career objectives, traditions of the Spring Festival, the writings of Lu Xun, bargaining for discounts, interviewing for a job, part-time work, family planning in China, visiting a traditional Chinese doctor, and China's launch of the Shenzhou 5 spacecraft. These textbooks have been widely used by students in North America, Australia and Europe. The fifth and sixth volumes of the series will be published later this year. Text in simplified Chinese characters.
