Understand Without Science/Chemistry Type UnderstandingBy cdhExcellent book. Best book with the best and most information that I have found. At least it was what I was specifically needing clarification on and only book I have found that explained DEW', Microwave, Infrared, No-touch weapons in such detail and in clear and concise way that I could grasp (since I am not a scientist)1 of 1 people found the following review helpful. A Good Book to Understand Gangstalking and Electronic Monitoring/HarassmentBy Dallas K BeusThis is well written book that documents the realities of gangstalking and electronic harassment. It is a tough read because of its honesty, but clearly describes the physical enemies we face. God bless you, Jane Ti. Stay safe...

Organized stalking is carried out by an enthusiastic and structured group that has cruel intentions: stalk, harass, injure, financially ruin, and mentally crumple human prey until incapacitation occurs. What sets this crime apart is that innocents are picked off the street. There is no getting away from the stalkers and no getting away from the unusual technology that is used to take over someones life. For the first couple of months, says June, I thought it was a sick game. Now that Ive been tormented for years, well, its clear that organized stalking is a sophisticated crime that follows a step-by-step process to leave the victim as bare and isolated as the dead tree on the cover. He or she may still be standing, but thats about it. Ill sum it up this way. Veiled intimidation ensures that targeted individuals are viewed by the public as free people, which they are not. They are playthings to their controllers. Hostages in plain sight. Victims are quite literally owned yet have limited chance of rescue because their desperate circumstances are misunderstood. Some die from the violence. Some die from suicide. And the rest merely exist. Organized stalking is worldwide and is called gang stalking in some areas. The electronic harassment that accompanies organized stalking is also known as covert harassment.

About the AuthorJune Ti is a mental health counsellor who was chosen for organized stalking and electronic harassment in 1998. She assists targeted individuals from her home in British Columbia, Canada.
