I practically just used this book in concordance with James Allen other NHA guide. I will say the key factors to passing the NAB is truly understanding the federal regulations, understanding the Life safety codes, reading over financials from Allen's other book (chapter 3) and going over all the laws and amendments passed that affect the LTC industry (Again, Allen's other book chapter 4). However, this book is your bible for future nursing home administrators. Not only does it

provide an overview of all the regulations. It also tells you the intent of the regulations and possible compliance issues for each one. It is very thorough and I highly recommend it. There is a national study guide that you can purchase off the appropriate website, but I got to say it is very underwhelming in preparing you for the NAB.1 of 1 people found the following review helpful. Great for health care and federal state inspectionsBy Julieann PetersGreat for health care and federal state inspections. I used it when I took my National Nursing Home Licensure exam. Great reference book to keep in your office to review the regulations.0 of 0 people found the following review helpful. all information online for freeBy Hilary RoyerWASTE of money. All information is easily found on CMS website, some of his other material is useful but not this. It is not useful for NHA, just surveyors. Could have been made much more useful

[The book] lists all the federal requirements that are evaluated by state surveyors during the annual survey visit to nursing homes and for complaint visits. The exhibit section contains forms used by surveyors to gather data during the survey visit. Visually, the format makes the regulations easy to read. If nursing home staff used the book to prepare for a survey, they would be well prepared. Marcia Flesner, PhD, RN, MHCA University of Missouri-Columbia From Doody's Review The Federal government, together with more than 50 advocacy groups, has spent the past 40 years writing and refining the rules and guidelines in this manual. This book presents the latest federal guidelines and protocols used by federal surveyors in certifying facilities for participation in Medicare and Medicaid funding. It is an essential resource for long-term care facilities to have on hand to be ready for a survey at any time. It provides information straight from CMS's Internet-Only Manual-in print and at your fingertips for easy access. Divided into four accessible and user-friendly parts, this manual includes: Federal requirements and interpretive guidelines Rules for conducting the survey Summary of the requirements for long-term care facilities and surveyors CMS forms commonly used by surveyors This newly updated and revised edition spans every aspect and service of a nursing home and represents the latest requirements to ensure that outstanding quality assurance and risk management programs are in place. New to This Edition: Section on how to use manual Summarization of federal requirements Updated definitions of Medicare and Medicaid Compliance requirements with Title VI of the Civil Rights Act of 1964 SNF/Hospice requirements when SNF serves hospice patients SNF-based home health agencies Life safety code requirements Changes in SNF provider status Surveyor qualifications standards Management of complaints and incidents New medical director guidelines
