Jeanie Kayser-Jones compares a typical private institution in the U.S. with a government-owned home in Scotland. Her analysis compels attention to the systematic abuse of the institutionalized elderly in the U.S.

"Students and professionals interested in aging can profit from this concisely written book."--J. Neil Henderson, "Medical Anthropology Newsletter" About the Author: Jeanie Schmit Kayser-Jones is Professor of Medical Anthropology and Gerontological Nursing at the University of California, San Francisco.
