Mary Gardner Holland : Our Army Nurses: Stories from Women in the Civil War before purchasing it in order to gage whether or not it would be worth my time, and all praised Our Army Nurses: Stories from Women in the Civil War:

1 of 1 people found the following review helpful. Our Army Nurses: Stories from Women in the Civil WarBy Kathleen PickrellThe book is a well-written account of women who served as nurses for the Northern army; the

accounts were published in 1895. A later edition added accounts of Catholic nuns. These are first-person stories. Some contained more detail than others. Some nurses volunteered for shorter periods. The book provides a variety of stories about what these women did and how they served their country. I purchased this book because I wanted to know how nurses nursed during this period. I learned a great deal about nurses, but I finished with many more questions. This book did not provide all of the answers but it was interesting to read. 0 of 0 people found the following review helpful. Enjoyed reading the short stories about the women who served ...By Liz TorgersonEnjoyed reading the short stories about the women who served as army nurses in the civil war. I would recommend this book as a good an fast read. 0 of 0 people found the following review helpful. Five StarsBy K. HrabcakThe person I bought it for loved it!

During the Civil War, more than five thousand women served the Union cause as army nurses. In 1895 Mary Gardner Holland collected these reminiscences, reprinted here for the first time. In this book, you will read the stories of one hundred of these women, often in their own voice. Some are well-known--Clara Barton, Mary Livermore, Dorothea Dix, and Mother Bickerdyke. Others served their country, often heroically, and returned home to a quiet life. The women recall a time when their work made a difference. One nurse, Vesta Swartz, wrote, "The war for the preservation of the Union...did much to advance the best interests of women. It created a necessity for her labor in new and untried ways. It gave her an opportunity to prove her ability...and cultivate true courage." OUR ARMY NURSES provides a rich picture of the role of women in the Civil War. The impact of their stories, Frank Freeman writes in *Microbes and Minie Balls*, "... is quite moving."

Poignant pictures of war's hardships and horrors fill the pages and personalize the Civil War from the perspective of women veterans. Recommended for collections on the Civil War, women, and nursing. --Library JournalA hundred years ago, women veterans were as proud of their service in the Civil War as those today are of theirs in World War II, Korea, and Vietnam. One of those veterans, Mary G. Holland, collected nearly a hundred first-person accounts. Her work is an important contribution to the developing field of women's military history. --Linda Grant DePauw, President, The MINERVA Center, Inc.Our Army Nurses is a book about medical care for sick and wounded soldiers and the ladies who tendered much of that care. But it is about far more. It is about people. About tenderness, hardship, and suffering. And it is about humanity. --Jan P. Romanovich, *The Citizens' Companion*About the AuthorMary Gardner Holland was born in Maine. After repeated attempts she was finally able to enlist as a nurse in 1864. She served for fourteen months in hospitals around the Washington, D.C., area. Interested in securing pensions for Civil War nurses, she collected stories from them and published her book in 1895.
