Teaching about famous women in history should be part of every history curriculum, my daughter loved these short stories. She's 11 and this was easy for her to read and interesting. We've ordered more of these books. 0 of 0 people found the following review helpful. Women matter, in any time period! By Wildcat Wilma Loved reading this!! Funny stories about women during an earlier period in our lives. Great fun. I would suggest that everyone read this book. 0 of 1 people found the following review helpful. Outrageous Reading Laughing By I Buy Lots of Books I had a whole mess of Vicki Leon's books in my library. Then, in September 2004 Hurricane Ivan washed away my house, and my beloved library. (I don't miss the old house but I still miss my library and my shoes.) I loved Vicki's books so much, the Uppity Women series especially, that I finally got around to buying them all AGAIN. As a professional motivational speaker and trainer I've pulled stories from Vicki's books into presentations for women's conferences. Though her books are about women of the past the lessons learned relate to

today. If you need inspiration and a laugh grab any one of Vicki Leon's books. "Outrageous Women of the Renaissance" by Vicki Len happens to be one of my favorites.

Fabulous true stories of the most amazing women in history. They were cool and courageous, self-reliant and sharp-witted, daring and determined. They were the exciting, inspiring, and totally Outrageous Women of the Renaissance. These remarkable women forged their own paths, made their own rules--and rocked the world! Among the outrageous women you'll meet are: * Joan of Arc--the bold warrior who at age 17 became commander-in-chief of the French army and led her country's charge against the invading English. * Elisabetta Sirani--the lightning-quick painter who opened an all-female art school and became an international sensation. * Grace O'Malley--the mother of three who ruled the high seas as Ireland's pirate queen and freedom fighter. * Christina of Sweden--the eccentric Swedish monarch who awakened her country to the wonders of Renaissance art, science, and literature. * Gracia Mendes Nasi--the Spanish humanitarian and philanthropist whose "underground railroad" saved the lives of countless persecuted Jews.
