**Alan C. Repp, Nirbhay N. Singh : Perspectives on the Use of Non-Aversive and Aversive Interventions for Persons with Developmental Disabilities** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Perspectives on the Use of Non-Aversive and Aversive Interventions for Persons with Developmental Disabilities:

This collection of writings is the most complete resource to date concerning one of the most controversial issues in special education: whether nonaversives alone are sufficient for challenging behavior problems. The authors provide both sides of a variety of topics, including ethics, interventions, functional assessment, basic and applied research, and treatment providers.
