J. Thelin, R. Trollinger : Philanthropy and American Higher Education (Philanthropy and Education) before purchasing it in order to gage whether or not it would be worth my time, and all praised Philanthropy and American Higher Education (Philanthropy and Education):

Philanthropy and American Higher Education provides higher education professionals, leaders and scholars with a thoughtful, comprehensive introduction to the scope and development of philanthropy and fund raising as part of the essential life and work of colleges and universities in the United States.

"Thelin and Trollinger are among the very few historical scholars with the experience and expertise to construct a history of philanthropy and the capacity to analyze the role of philanthropy in the evolution of American higher education. We need to understand how philanthropists and philanthropy have influenced the development of our colleges and universities in order to develop a more critical and thoughtful attitude toward the role of giving in setting higher education policy." - Stanley N. Katz, recipient of the National Humanities Medal; Lecturer with rank of Professor in Public and International Affairs at Princeton University, USA, and Director, Princeton University Center for Arts and Cultural Policy Studies, The Woodrow Wilson School, Princeton University "Thelin and Trollinger have given us a wonderful introduction to the history and issues related to philanthropy and the role of philanthropy in higher education. This book will provide useful background information for future college presidents, higher education fundraising executives, and those involved in managing college and university endowments." - Eugene Tempel, Founding Dean, Lilly Family School of Philanthropy, Indiana University, USA
