It has opened my eyes in the way I view things. It is obvious the author has the strong desire to reach his audience and shows no selfishness in his intent. The Dark Side of the Internet is a warning to parents, children and spouse's of the evil and deception found on the Internet, where you will find no control to what or to whom you are exposed. The "Dark Side Of The Internet" is a true description of this new frontier of immoral exposure and personal conduct through the use of electronic communication. The infidelity, pornography, and how adults interact with children in "Chat Rooms", should bring shame to those who set the rules. Who is in control?

Fine literary profile of "good" against evil. -- Count and State Detectives Association Of PennsylvaniaAbout the AuthorGerld M. Gresko was born in Cleveland, Ohio. He now lives in Pennsylvania with his wife and four of his eight children.
