J. Antonio Villacorta : The Dresden Codex: Drawings of the Pages (Mayan Studies : No 3) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Dresden Codex: Drawings of the Pages (Mayan Studies : No 3):

This book, written in 1930, contains careful graphic representations of the 74 pages comprising the Dresden Codex. The hieroglyphs and pictorial illustrations found on the pages of the codex have been meticulously and finely drawn by Carlos A. Villacorta to bring out their smallest details. At the same time, J. Antonio Villacorta C. describes and

comments (in Spanish) upon each element of the pages. This is a valuable book for the scholar.
