Now in a fully updated edition, this leading textbook has been thoroughly revised to reflect the sweeping economic, social, and political changes the past decade has brought to Europe and to incorporate new research and teaching approaches in regional geography. The authors employ a cultural-historical approach that is ideally suited to facilitate understanding of Europe's complex geographical character. Their topical organization including environment, ethnicity, religion, language, demography, politics, industry, and urban and rural life offers students a holistic understanding of the diverse cultural area that is Europe. Inclusive, rich in ideas, lively, interesting, and humanistic, The European Culture Area remains the text of choice for courses on the geography of Europe.

About the Author Alexander B. Murphy is professor of geography and Rippey Chair in Liberal Arts and Sciences at the University of Oregon. Terry G. Jordan-Bychkov (1938-2003) was Walter Prescott Webb Professor of History and Ideas in the Department of Geography at the University of Texas, Austin. Bella Bychkova Jordan is an instructor in the Department of Geography and the Center for Russian, East European, and Eurasian Studies at the University of Texas, Austin.
