John Baylis, Steve Smith, Patricia Owens : The Globalization of World Politics: An Introduction to International Relations before purchasing it in order to gage whether or not it would be worth my time, and all praised The Globalization of World Politics: An Introduction to International Relations:

2 of 2 people found the following review helpful. Excellent and comprehensive text
By CustomerTold from the viewpoint of a number of authors, this text outlines the field of world politics (not international politics as has been taught lately). This is an interesting lead in to how nations talk to one another, do business, and ultimately how problems faced by the international community can be presented and resolved. Ultimately a good read, without tying the reader down with field-based minutiae, this text can be useful to both the knowledgeable layperson, the student and the professional.
0 of 0 people found the following review helpful. Great textbook!
By CustomerGreat textbook! Great price!

By Gleysis MazaMy teacher just recommended for our postgraduate studies, it's very complete and have good and interesting study cases that could help to get a better understanding of the international relations and world politics

Working from a unique non-U.S. perspective, this market-leading text provides a coherent, accessible, and engaging introduction to the globalization of world politics. Now in its fifth edition, this internationally successful text has been fully revised and updated in light of recent developments in world politics. New chapters on post colonialism and post structuralism ensure that it will remain the most comprehensive introduction to international relations available. This exceptional text is ideal for students who are approaching the subject for the first time.
FEATURES* Presents contributions from an impressive line-up of international experts, each of whom provides accessible but stimulating insights into history, theory, structures, processes, and other key issues in the field* Offers a visually appealing full-color interior* Provides a strong pedagogical program, which includes numerous boxes, figures, tables, maps, questions, lively examples, and case studies

"The Globalization of World Politics is the book that you wish you had written yourself. It is excellent. The book reflects the authors' pedagogical understanding and deep knowledge of their subject. Students, teachers, and scholars alike will find it very valuable." --Mikael Baaz, University of Gothenburg
"Extensive updating and revision, new chapters by leading scholars in the field, and enhanced online resources ensure that this new, fifth edition of Globalization of World Politics will further enhance its reputation as the world's best introductory text on world politics." --Peter Lawler, University of Manchester
"By expanding its coverage of recent global developments - financial crises, migration dynamics, and deepening anxieties - this popular textbook sustains its claim to comprehensive, cutting-edge analysis and student-friendly pedagogical effectiveness." --V. Spike Peterson, University of Arizona
"This textbook offers an extraordinary combination of historical, conceptual and thematic breadth, accessible prose written by some of IR's greatest minds, and a perspective that is genuinely global in scope. It is the must read for students of international relations from around the world." --Arlene B. Tickner, Universidad de los Andes
