From Springer : The Great Chain of Being and Italian Phenomenology (Analecta Husserliana) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Great Chain of Being and Italian Phenomenology (Analecta Husserliana):

The Center maintained its international contacts in 1979 by inviting numerous foreign scholars to the National Conference at Viterbo, including H. Kochler (Austria), R. Magliola (U.S.A.), J. C. Pigué (Switzerland), M. R. Barral (U.S.A.) and M. Petit (France), and also by extending hospitality at its April Seminar (held at the Teacher Training Faculty of Rome University) to Prof. H. Meyn of The World Phenomenology Institute, who spoke on Historicism and the Idea of Philosophy as a Rigorous Science. The activities organized by The Italian Center since its foundation

have given a considerable new impulse to phenomenological research in Italy. They have made established contacts between numerous Italian scholars who previously worked in isolation without a continued and effective exchange of the results of their researches, and they have also strengthened and extended relations with the international phenomenological community, thereby creating a cultural pattern of cooperation which becomes more and more concrete and fruitful.
