Joyce Glasner : The Halifax Explosion: Heroes and Survivors (Amazing Stories) before purchasing it in order to gage whether or not it would be worth my time, and all praised The Halifax Explosion: Heroes and Survivors (Amazing Stories):

The story tells of heroes and survivors that in the aftermath stepped up to help all the injured. I can't even image the devastation. I love to learn of history and this book told a story of a life altering

situation.

The Halifax explosion was unprecedented in its devastation with regards to casualties, force and radius of the blast, and its widespread damage to property. On the morning of December 6, 1917, a munitions vessel loaded with explosives collided with a cargo ship in Halifax harbour triggering the worst man-made explosion prior to Hiroshima. At about 9:06 A.M., 3121 tons of steel exploded into fragments, houses collapsed, factories toppled and churches crumbled. The apocalyptic blast ravaged Halifax and Dartmouth, killing at least 1900 people and injuring thousands more. This gripping account describes the events of that fateful day in vivid detail, following the heroes and survivors of the Halifax Explosion as they struggle to cope with the devastation.

"There is good historical information given in this book and by reading it students may be exposed to a happening in Canadian History that they were previously unaware of." (Alison Edwards Resource Links 2012-02-02) "This is a good book. Glasner writes well, she has assembled pertinent illustrations to accompany the text, crafted a useful index, and the work generally focuses on people and events that will captivate younger readers" (George Sheppard Canadian Teacher 2012-11-01) About the Author JOYCE GLASNER lives in Halifax, Nova Scotia.
