Ed Morrow : The Halloween Handbook before purchasing it in order to gage whether or not it would be worth my time, and all praised The Halloween Handbook:

3 of 9 people found the following review helpful. Everything you could possibly want!By CustomerLove this book-it is the ultimate book in giving the reader a vast knowledge of the history, traditions and fun of Halloween. There are a few black and white illustrations but even the lack of pictures cannot take away from the brilliance of this book. It's my favorite Halloween resource!0 of 0 people found the following review helpful. Paid \$1 For This Book, Which Was \$1 Too MuchBy KaraA dated, dense book that fails to communicate either the joy of Halloween or any interesting

way of celebrating it. The author's fear of changing times which he does not understand nor meaningfully analyzes pervades this book and all the practical ideas are rubbish. 12 of 14 people found the following review helpful. Samhain means Summer's End By A. Lakeokay, here is another guy who is getting his information from incorrect places. Samhain (pronounced Sow-en) is Celtic for Summer's end, which Halloween is. It is the Celtic New Year. There is no Celtic God of the dead! Feralia was celebrated in February, if you're going to write a book or spread around information it might do you well to actually research a bit on your chosen topic. Also going to the Catholic Herald to check on the dates of a PAGAN festival probably isn't the smartest idea in the world. They may have appropriated all of our holidays and twisted them into something Christian, but that doesn't mean they know anything about them.
