Walter Williams : The Historical Origin of Islam before purchasing it in order to gage whether or not it would be worth my time, and all praised The Historical Origin of Islam:

1 of 1 people found the following review helpful. A work that is very DENSE with DETAILED informationBy Edumacated ConsumerDr. Williams is an acquired taste! You have to "acquire" a "taste" for unapologetic, radical, BS intolerant TRUTH with a willingness to re-examine what "everyone was taught" on these matters! He is of the Dr. Ben

ilk but he does NOT expend too much page space with tongue in cheekiness THIS man has eagle eye FOCUS on what matters and expends LITTLE energy flowering up his delivery.If weight of words or content were a series of boxing blow techniques MOST of his words/content would deliver the TKO!I admit he goes into detail to such a degree that I have to sort of "coast" to get to where I see the BIG picture again ...it's simply a work that is very DENSE with DETAILED information he seems to have a more-than-the-average-ADHD-mind-can-absorb fine details grasp on NOT just the main characters but those side characters who impacted the main characters lives as well!It's like your mind is saying please don't introduce any more PEOPLE involved in this "drama" BUT he DOES and you come to realize he JUST has to!And one just HAS to conversely expand their mental capacity - YES grow even MORE brain cells than you USUALLY work wit! LOL!As well you come to TRULY admire this man's OBVIOUS COURAGE to state what certainly will set MANY folks on FIRE just like the flames on that cover illustration are depicted on the "faceless" one.I don't think the man has time or room for "fear" as he so values what the facts present reveal!While SO MANY authors seem to "lean on" "justify" or otherwise AFFIRM the almighty "church" and Church's version of history!!!Mr. Williams makes no such folly this man throws the proverbial "baby" OUT with the bathwater THEN when he's done he goes straightway and tosses the tub that held the baby the bath water....but he still aint done as he head on down to the old dark basement with a flashlight to test the foundations!And should the foundation be found to be SHODDY? baby you best believe the WHOLE HOUSE WILL BE TRASHED faster than you can say "Like a good neighbor State ..F***k this man done huffed puffed blew my damn house away!!!!!!But later you realized THAT house was DOOMED from the very FIRST brick laying!I gots a NEW STRONGER foundation!THANK YOU Dr. Contractor WALTER WILLIAMS!!!!3 of 3 people found the following review helpful. The author really breaks it down with great research.By Greg AveryhardtAn extremely deep and knowledgeable piece of work. The truth needs to be known and this book tells the real origins of Islam. So many people are not aware of what they have committed too. The author really breaks it down with great research.0 of 0 people found the following review helpful. Awesome book and if you see any negative review those ...By jerome j allenAwesome book and if you see any negative review those are agents who are trying to keep you from world history. You can tell in their comments they are even clueless about what they claim?Historically accurate book.

historically,as you progress through time,you will eventually encounter a powerful triad of religions:christianity,islam and judaism.all of these religions have had strong mass appeal and persuasive powers,and they remain the most powerful tools in the western world's arsenal of controlling forces.these religions serve as the ultimate sentry for western world interests.they were developed and are perpetuated to preserve past gains,enhance present gains,and ensure future gains
