I found this book to be highly informative. I did disagree with some of it's conclusions, but the book would be an excellent intro to Iran's constitutional movement for a casual reader and is an excellent resource for a more serious reader.

During the Iranian Constitutional Revolution of 1906 to 1911 a variety of forces played key roles in overthrowing a repressive regime. Afary sheds new light on the role of ordinary citizens and peasantry, the status of Iranian women, and the multifaceted structure of Iranian society.

"A thoroughly researched and highly detailed account of the formation of Iran's first constitution, ratified on December 30, 1906, just a week before the death of Muzffar al-Din Shah." -- "Choice"
