Linda Glovach writes and illustrates with passion. By david bojarski with all the electronic stuff out there - a book is still tops - her little witch series are great collectables. recommend to all ages. 0 of 0 people found the following review helpful. A wonderful activity book that includes tips, facts and folklore. By msigmond This wonderful activity book has tips, facts and folklore, and a whole lot of activities for your young witches (and wizards?) to try out during Halloween season. The illustrations guide you and serve as background story to make it more interesting. I would say the activities and crafts are a little advanced for younger children, perhaps the ideal age would be 8 - 10 years. Although not a bastion of diversity, they were clearly including one African American child among the nine friends, which I thought was pretty progressive for 1975. Note: This is an activity book, not a story book.

Step-by-step instructions for a variety of Halloween activities, foods, costumes, and festivities.
