**Bernice L. Neugarten : The Meanings of Age: Selected Papers** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Meanings of Age: Selected Papers:

One of the most distinguished psychologists of the century, Bernice L. Neugarten is best known for her

groundbreaking contributions to the study of adult development and aging. Covering more than forty years of scholarship, this volume brings together Neugarten's most important contributions in four areas: Age as a Dimension of Social Organization; The Life Course; Personality and Adaptation; and Social Policy Issues. Each section is introduced by an eminent authority in the area, including George L. Maddox, Gunhild O. Hagestad, David L. Gutmann, Robert H. Binstock, and Dail A. Neugarten, who explains and highlights Neugarten's contributions in light of the most recent research. Carefully edited by Dail Neugarten, each chapter presents the reader with Bernice Neugarten's original formulations on topics such as age norms and age constraints, the changing meanings of age, and age neutral social policy. Including four previously unpublished papers, *The Meanings of Age* will be of interest to scholars, students, and practitioners of psychology, education, law, medicine, social policy, and gerontology.
