**Adolf Guggenbühl-Craig : The Old Fool and the Corruption of Myth** before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Old Fool and the Corruption of Myth:

0 of 1 people found the following review helpful. Where is it? By Always Curious Never received. 12 of 13 people found the following review helpful. Realistic assessment of Ageing By Rafael This is an excellent assessment of ageing myths and misunderstanding of our conception of the old wise man. It also underscores the generation differences and why one generation sees reality differently. It's a comparison between the creative wisdom of the child myth vs the

wisdom of the old wise man. A very powerful and frightening analysis of ageing and of its reality!

With this book Guggenbhl-Craig relieves the old of having to be wise and the young of wisdom worship.
